About the Author

Introduction and Executive Summary

Chapter 1- Addressing the Confusion about Sustainability: The Typical Executive View

History of Sustainability
Resources and Respect

Selecting the Term: Sustainability? Corporate Social Responsibility? Something Else?

The executive view: “That Sounds Nice, but....”

Nobody’s Perfect

Views on Sustainability Reporting

Reason for Optimism

Follow-up Checklist for Action: Management Views on Sustainability

Chapter 2- Determining Scope: An Operational Definition of Sustainability

Intuitive and Literal Definitions of Sustainability

Operational Definition of Sustainability: Questions, Policy, and Topics

Follow-up Checklist for Action: An Operational Definition of Sustainability

Chapter 3- The Value of Sustainability: Why Bother?

Business Value Versus Ethical Value

Framing the Business Case: Five Questions

The Show-Me-the-Money Model: Using Sustainability to Make Money

- *Factor 1: Reputation and Brand Strength*

- Reputation as a Valuable Asset, Significantly Affecting Sales, Stock Price, and Market Value

- The Impact of Social and Environmental Performance on Overall Reputation

- The Direct Effect of Social and Environmental Reputation on Sales and Stock Price

- Harm to Reputation and Financial Results from Negative Environmental and Social Performance

- Boosting Social Reputation and Business Value Through Strategically Planned Philanthropy

- Strategies for Maximizing Reputational Benefits from Sustainability Performance

- *Factor 2: Competitive, Effective, Desirable Products and Services; New Markets*

- Green Design Defined

- Stimulating Innovation with Sustainability Initiatives

- Commercially Successful Green Products

- Preferences for Green Products and Services by Governments and Companies

- The Growing Demand for Sustainability-Certified Products and Services

- Successful Business Models for Serving the Poor

- Lessons from Green Product Failures

- *Factor 3: Productivity*

- Big Savings from Eco-Efficiency

- Documenting Benefits Through the Baxter Environmental Financial Statement

- Productivity Improvements from Safety Programs and Other Internal Social Initiatives

- Controlling Risk of Incidents with an SOS to Protect Productivity

- *Factor 4: Operational Burden and Interference*

- *Factor 5: Supply Chain Costs*

- *Factor 6: Cost of Capital (Lender and Investor Appeal)*

Growth of SRI
Recent History of SRI
Key Organizations Driving the SRI Movement
Screening Programs for Loans, Securities, Mutual Funds, and Indexes
Benefits of SRI for Investors and Companies
Investor Preference for Companies with Strong Governance

- *Factor 7: Legal liability*

Linkage Between Company Sustainability Obligations and Financial Success Factors
Sustainability Initiatives that Don't Contribute to Financial Success
Quid Pro Quo Model: Using Sustainability to Garner Critical Support from Stakeholders

- *Employees*
 - *Investors and Lenders*
 - *Suppliers and Customers*
 - *Communities and Governments*
- Self Interest Versus a Higher Calling

Follow-up Checklist for Action: The Value of Sustainability

Chapter 4- Building an SOS: The Key Elements and Basic Structure

The Champion/Leader
Vision, Values, and Policy; External Codes

- *Types of Codes*
 - *The Benefits of Using Codes*
 - *Determining Which Codes to Adopt*
- Selling Management on Sustainability
- *Contents of the Sales Pitch*
 - *Sequencing of the Sales Effort: The "Snowball" Strategy*
 - *Other Techniques for Gaining Management Buy-in*
 - *If All Else Fails*
 - *Gaining Support from the Board*

Organizational Structure: multidisciplinary teams

- *Core Team*
- *Deployment Team*
- *Report Distributors Network*
- *Other Team Structures*
- *Organizing the Board for Sustainability*
- *Structure at Small Companies*
- *Code of Conduct for Good Teamwork*

The Sponsor

Follow-up Checklist for Action: Key Elements and Basic Structure of an SOS

Chapter 5- SOS Standards: The Roadmap for Change

Natural Evolution of SOS from Reporting
Advantages of Management System Standards
Developing an SOS Standard

Possible Concerns by Management About an SOS

- *Avoiding Management System overload*
- *Minimizing the Documentation Burden*
- *Getting Management Systems to Deliver Superior Performance*

The Role of Stakeholders in Evaluating Management Systems

SOS Process Schedule

Follow-up Checklist for Action: SOS Standards

Chapter 6- Strategic Planning for Focused Sustainability Improvement

Purpose and Benefits of Strategic Planning by Functional Groups

General Process for Sustainability Planning

Prioritization Process

Pre-Planning Information and Processes

- *Talent Management Review*
- *Review of Business Performance and Goals*
- *Sustainability Performance Review*
 - *Big Picture Review*
- *Management Feedback Review*
- *Stakeholder Feedback Review*

Criteria for Prioritizing Sustainability Issues

Techniques for Reaching Consensus on Priorities

- *Ratings on Appendix 4 forms*
- *Value-resources mapping process*
- *Voted dots process*
- *Delphi process*

Strategic Planning Formats: The Balanced Scorecard and Alignment Tools

- *Aligning Plans with Sustainability Concepts*
- *Aligning Implementation in Large Organizations*

The Tactical Plan

The Role of Aspects Analyses and Risk Assessments in Planning

Tracking Progress

Personal Performance Objectives

Planning in Small Organizations

Follow-up Checklist for Action: Strategic Planning

Chapter 7- Selecting Goals and Indicators

Importance of a Clear and Elevating Goal

Objectives, Goals, Targets, Indicators, and Metrics: What Do They All Mean?

Other Types of Goals

- *Multi-year Goals*
- *Collective Directional Goals*
- *Zero Goals*
- *Implied Goals*

Setting Metric Goals

Other Types of Indicators

- *Condition Versus Performance Indicators*
- *Leading Versus Lagging Indicators*
- *Absolute Versus Ratio Metrics*
- *Indexes*

Selecting Indicators

Prioritizing Indicators

Developing Complementary Goals and Other Indicators

- *Linking Environmental and Social Goals to Financial Benefit*
- *Using Complementary Goals to Eliminate Undesirable Results*
- *Using Indicators at Different Levels of the Organization*
- *Using Different Types of Indicators to Address the Same Issue*
- *Using Different Indicators for Cause and Effect*
- *Using Indicators by Stage of Process*
- *Using Indicators Across the Supply Chain*
- *Using Indicators by Stage of Program Development*

Role of Stakeholders in Selecting Goals and Indicators

Final Administrative Details

Follow-up Checklist for Action: Selecting Goals and Indicators

Chapter 8- Bringing Sustainability to the Front Line: Deployment, Integration, and Alignment

Why Things Don't Get Done

Deployment: Rollout Tools and Field Implementation

- *Developing and Testing Rollout Tools*
- *Field Implementation*

Integration

- *Reinforcing Responsibilities*
- *Integration Overload*

Alignment

Special Concerns in Particular Functions

Sustainability in the Rollout of Cross-Functional Activities

- *Compliance*
- *Issues Management; Emergency Response; Risk Management*
- *Change Management*

Overcoming Resistance: What if They Slam the Door in Your Face?

Deployment to Outside Organizations

Follow-up Checklist for Action: Deployment, Integration, and Alignment

Chapter 9- Data Systems, Auditing, and Other Monitoring and Accountability Mechanisms

Types of Monitoring; Common Problems

Data Collection and Management Systems: How Do You Know What to Buy?

- *Model Process for Selecting and Implementing Information Technology for Monitoring and Managing Sustainability Performance*
- *Overcoming Data Overload*

Auditing

- *When to Do an Independent Audit*
- *Management-by-Audit; Achieving the Right Balance*
- *Types of Audits*
- *Selecting Auditors*
- *Getting the Most from Your Auditors*
- *Cautions About Cursory and Survey Audits*
- *The Audit Report*
- *Tracking Audit Items*

Other Accountability Mechanisms

Follow-up Checklist for Action: Monitoring and Accountability

Chapter 10- Transparent Sustainability Reporting

Reasons for Transparent Reporting

- *Driving Constructive Change*
- *Building Stakeholder Trust Through Transparency*
- *Building Reputation Through Consistent Communications*
- *The Reasons Companies Give for Reporting*

Why Companies Don't Report Transparently; How to Reverse That

Internal Reporting

Mandatory Public Reporting

- *Pollutant-Disclosure Laws*
- *Social and Environmental Information in Financial Reports*

Voluntary Sustainability Reporting Initiatives

- *GRI Guidelines*
- *Sustainability Reporting Statistics and Trends*

Deciding Whether to Report Publicly; Low-Cost Strategies

- *The Polaroid Reporting Strategy*
- *A Key Determinant of Cost and Effort: Report Size*
- *Costs of Reports*
- *Strategies for Controlling Reporting Costs and Effort*

Process for Preparing a Public Report

- *Step 1: Establish Teams*
- *Step 2: Plan the Report; Monitor Performance*
- *Step 3: Gather and Review Data; Identify Gaps*
- *Step 4: Analyze and Explain Data Trends*
- *Step 5: Draft Report Text*
- *Step 6: Review and Finalize Draft*
- *Step 7: Publish and Distribute Report*
- *Step 8: Solicit Stakeholder Feedback*
- *Step 9: Respond to Feedback as Appropriate*

Planning the Report

- *Audiences*
- *Scope*

- *Medium: Website or Hard Copy?*
- *Size*
- *Quantity of Reports; Distribution Plan*
- *Budget*
- *Schedule*
- *Title and Theme*
- *Structure, Organization*
- *Content*
- *Reporting Tone and Philosophy*
- *Verification*

Reporting as a Balancing Act

Future Directions in Public Reporting

Follow-up Checklist for Action: Transparent Sustainability Reporting

Chapter 11- Stakeholder Engagement; The Role of NGOs

Why Organizations Should Engage with Stakeholders

Why Companies Don't Engage Their Stakeholders: The Engagement-Risk Dilemma

Encouraging Engagement; The Stakeholder Engagement Principles

- *Step 1: Set Engagement Objectives*
- *Step 2: Identify and Assess Stakeholders*
- *Step 3: Develop Engagement Plan*
- *Step 4: Implement Plan*
- *Step 5: Assess Engagement Process*
- *Step 6: Respond to Engagement Results*
- *Step 7: Measure and Report Progress*
- *Step 8: Repeat the Process*

Common Approaches for Engaging Various Types of Stakeholders

- *Employees*
- *Customers*
- *Suppliers*
- *Communities*
- *Governments*
- *Investors*
- *Activists, Public Interest Groups*

NGOs, CSOs: Who Are They?

History of NGOs

Types of NGOs

- *Democratic Versus Self-Appointed*
- *Government-Supported Versus Nongovernment-Supported*
- *North Versus South*
- *Direct Action Versus Indirect Action Versus Cooperative Action*
- *Campaign Versus operational*
- *Solo Versus Coalition*
- *Broad scope Versus Narrow Scope*

- *Centralized Versus Decentralized*

The NGO as a Business

Political, Economic, and Social Trends Affecting NGOs

Why Engage with NGOs

Tips for Engaging NGOs

Follow-up Checklist for Action: Stakeholder Engagement; The Role of NGOs

Chapter 12- Approach to Sustainability for Small and Struggling Companies

Approach for Small Companies

- *Why Small Companies Should Pursue Sustainability*
- *Organizing for Sustainability*
- *Creating a Policy, Inventory, and Plan*
- *Stakeholder Engagement*
- *Sustainability Reporting*
- *Other Guidance*

Approach for Financially Struggling Companies

Follow-up Checklist for Action: Approach to Sustainability for Small and Struggling Companies

Chapter 13- Approach to Sustainability for NGOs

Sustainability Aspects of NGO Operations

Sustainability Aspects of NGO Services

Recommended Approach

Follow-up Checklist for Action: Approach to Sustainability for NGOs

Chapter 14- Approach to Sustainability for Governmental Organizations

The Impact of Government on Sustainability

Local Agenda 21 Model Communities Programme

Best SOS Practices Among Government Institutions

- *Element 1: Sustainability Vision or Policy*
- *Element 2: Team Structure*
- *Element 3: Stakeholder Engagement*
- *Element 4: Planning*
- *Element 5: Performance Indicators*
- *Element 6: Reporting*
- *Element 7: Development and building design*
- *Element 8: Procurement*

Putting the Pieces Together

Follow-up Checklist for Action: Approach to Sustainability for Governmental Organizations

Chapter 15- Approach to Sustainability for Colleges and Universities

Impact of Collegiate Institutions on Sustainability

General Framework for Sustainability at Collegiate Institutions

The Challenges for Universities Seeking Sustainability

- *Creating a Multidisciplinary Approach*

- *Creating a Multisector Approach*
- *Securing Funding*

Helpful Organizations

Selling Sustainability to the Administration

Best SOS Practices Among Collegiate Institutions

- *Element 1: Structure and Deployment*
- *Element 2: Personnel Selection, Development, and Motivation*
- *Element 3: Policy and Codes*
- *Element 4: Auditing*
- *Element 5: Planning*
- *Element 6: Sustainability Programs Within Various Sectors of University*

Activity

Campus Operations Sector

Education Sector

Research Sector

Student Activities

Community Outreach Activities

- *Element 7: Indicators and Transparent Reporting*

Integrated Programs

Follow-up Checklist for Action: Approach to Sustainability for Colleges and Universities

Chapter 16- Keeping the Initiative Alive: Making the SOS Sustainable

Sustaining the SOS

How Others Can Help

Follow-up Checklist for Action: Keeping the Initiative Alive

APPENDICES

Appendix 1- Summary of Sustainability Trends

1.0 Introduction to Global Sustainability Trends; the Millennium Development Goals

Seeing the Big Picture

The Millennium Development Goals

The Trends

1.1. Growth in Global Business Competition

1.2. Opposition to Globalization

1.3. Speed of Communications; The Digital Divide

1.4. Widening Prosperity Gap

1.5. Population Growth; Mortality Rates

1.6. AIDS and Other Serious Diseases

1.7. Mental Health Problems

1.8. Increased Immigration, Lower Fertility in Industrialized Nations

1.9. Hunger and Malnutrition

1.10. Child and Forced Labor

1.11. Education Needs for the Disenfranchised

- 1.12. Urbanization
- 1.13. Overconsumption of Resources
- 1.14. Fossil Fuel Depletion
- 1.15. Climate Change
- 1.16. Deforestation
- 1.17. Threats to Biodiversity
- 1.18. Fresh Water Depletion; Water Contamination
- 1.19. Wetlands Destruction
- 1.20. Fish Depletion
- 1.21. Coral Reef Destruction
- 1.22. Spread of Hazardous Pollutants
- 1.23. Traditional Air Pollutants
- 1.24. Declining Soil Quality; Increasing Crop Yields
- 1.25. Ozone Depletion
- 1.26. Low Credibility of Corporations
- 1.27. Extended Producer Responsibility
 - The Precautionary Principle
- 1.28. Green Products
 - Green Energy
 - Green Buildings
 - Genetically Modified Crops
 - PVC Products
 - Lessons for Business
- 1.29. Green Marketing/Labeling
 - Types of Environmental Labeling
 - Cause-Related Marketing
- 1.30. Green Product Certification
- 1.31. Obesity; Food Nutrition
- 1.32. Rise in Socially Responsible Investing
 - Types of SRI
 - *Screened Investments*
 - *Community Investing*
 - *Investor Advocacy*
 - Coalitions Among Ethical Investors
- 1.33. Investor Concerns about Corporate Governance
- 1.34. Increased Demands for Transparency, Public Reporting
- 1.35. Growing Power of NGOs/CSOs
- 1.36. Increasing Global Terrorism

Appendix 2- Sustainability-Related Codes of Organizational Behavior

2.1 General Sustainability Codes

- 2.1.1 U.N. Global Compact
- 2.1.2 The Earth Charter
- 2.1.3 Global Sullivan Principles of Corporate Social Responsibility
- 2.1.4 OECD Guidelines for Multinational Enterprises

- 2.1.5 Social Venture Network's Standards for Corporate Responsibility
- 2.1.6 Caux Round Table's Principles for Business
- 2.1.7 Principles for Global Corporate Responsibility: Benchmarks for Measuring Business Performance
- 2.1.8 U.S. Department of Commerce Manual of Business Ethics for Emerging Markets
- 2.1.9 Nippon Keidanren's Charter of Corporate Behavior

2.2 Environmental Codes

- 2.2.1 The CERES Principles
- 2.2.2 ICC Charter for Sustainable Development
- 2.2.3 Position Statement of Pew Center's Business Environmental Leadership Council
- 2.2.4 Responsible Care® Global Charter

2.3 Human Rights, Labor, and Other Social Codes

- 2.3.1 U.N. Universal Declaration of Human Rights
- 2.3.2 Amnesty International's Human Rights Principles for Companies
- 2.3.3 U.N. Norms on the Responsibilities of Transnational Corporations and Other Business Enterprises With Regard to Human Rights (draft)
- 2.3.4 U.S.-U.K. Voluntary Principles on Security and Human Rights
- 2.3.5 ILO Tripartite Declaration of Principles Concerning Multinational Enterprises and Social Policy
- 2.3.6 European Union Charter of Fundamental Rights
- 2.3.7 Social Accountability 8000
- 2.3.8 Fair Labor Association's Workplace Code of Conduct
- 2.3.9 Worker Rights Consortium's Model Code of Conduct
- 2.3.10 WRAP Apparel Certification Principles
- 2.3.11 Ethical Trading Initiative's Base Code

2.4 Marketing and Advertising Codes

- 2.4.1 ICC International Codes of Marketing and Advertising Practice
- 2.4.2 Better Business Bureau and Other U.S. Marketing and Advertising Codes
- 2.4.3 British Code of Advertising, Sales Promotion, and Direct Marketing
- 2.4.4 Canadian Direct Marketing Association Code of Ethics and Standards of Practice

2.5 Anti-Corruption Codes

- 2.5.1 OECD Convention for Combating Bribery of Foreign Officials in International Business Transactions
- 2.5.2 U.N. Convention Against Corruption
- 2.5.3 ICC Rules of Conduct to Combat Extortion and Bribery
- 2.5.4 Transparency International's Business Principles for Countering Bribery
- 2.5.5 AS 8001-2003 Fraud and Corruption Control Standard

2.6 Governance Codes

- 2.6.1 OECD Principles of Corporate Governance
- 2.6.2 Council of Institutional Investors' Corporate Governance Policies
- 2.6.3 The U.K. Combined Code
- 2.6.4 King II Code of Corporate Practices and Conduct

- 2.6.5 AS 8000-2003 Australian Good Governance Principles
- 2.6.6 Sarbanes-Oxley Act
- 2.6.7 Other Governance Codes

2.7 Industry-Specific Codes

Appendix 3- Sustainability-Related Management System Standards

- 3.1 ISO 9001 Quality Management System Standard
- 3.2 ISO 14001 Environmental Management System Standard
- 3.3 ISO 26000 Social Responsibility Guideline Standard (proposed)
- 3.4 OHSAS 18001
- 3.5 ILO Guidelines on OSH Management Systems
- 3.6 ANSI Z10 OHS Management System
- 3.7 EMAS
- 3.8 Responsible Care® Management Standards
- 3.9 SIGMA Management Framework
- 3.10 BS 8900 Sustainability Management Guidelines (proposed)
- 3.11 Baldrige Award Criteria
- 3.12 Australian Business Excellence Framework
- 3.13 AS 8000-8004 Australian Governance Series Standards (including CSR Standard)
- 3.14 U.S. DOE Performance-Based Management Handbook
- 3.15 IFC Social & Environmental Management System
- 3.16 Austrian Model CSR Management System Guide ON-V 23
- 3.17 Mexican Standard IMNC SAST 004 Social Responsibility System Guideline (draft)
- 3.18 AFNOR Guide SD 21000
- 3.19 Q-RES Management Model
- 3.20 German Values Management System Standard
- 3.21 U.K. Investors in People Standard
- 3.22 SA 8000
- 3.23 The Natural Step Framework
- 3.24 Reitaku Ethics Compliance Standard 2000
- 3.25 ISO 27001 and 28000 Security Management System Standards
- 3.26 Compliance Program Elements of the U.S. *Sentencing Guidelines*
- 3.27 U.S. EPA Compliance-Focused Environmental Management System

Appendix 4- Planning Forms for Assessing and Prioritizing Sustainability Risks and Opportunities

4.0 Comments on Forms A, B and C

Form A: Business Prioritization of Sustainability Topics

Form B: Importance Rating of Sustainability Topics to Business Success

Form C: Business Impact Assessment of Sustainability Trends

Appendix 5- Method for Calculating Savings and Cost Avoidance for Baxter's Environmental Financial Statement

Appendix 6- Examples of Sustainability Issues for Various Functional Groups

- 6.1 Business Development (Mergers and Acquisitions)
- 6.2 Business Planning
- 6.3 Charitable Giving; Foundation
- 6.4 Communications; Public Relations; Community Relations
- 6.5 Corporate Governance; Corporate Secretary
- 6.6 Environment, Health & Safety
- 6.7 Ethics/Business Practices
- 6.8 Facilities Engineering; Energy Management
- 6.9 Finance
- 6.10 Government Affairs/Public Policy
- 6.11 Human Resources/Employee Relations
- 6.12 Information Technology
- 6.13 Internal Audit
- 6.14 Investor Relations
- 6.15 Law; Corporate Compliance
- 6.16 Manufacturing
- 6.17 Quality
- 6.18 Research and Development; Product Design
- 6.19 Risk Management
- 6.20 Sales and Marketing; Distribution
- 6.21 Security
- 6.22 Supply Chain (Supplier Management; Purchasing)

Appendix 7- Examples of Sustainability Metrics

7.1 Examples of Sustainability Metrics for Companies

- 7.1.1 Company Sustainability Metrics: Units of Production Activity and Service Value
- 7.1.2 Company Sustainability Metrics: General Performance
- 7.1.3 Company Sustainability Metrics: Economic Performance
- 7.1.4 Company Sustainability Metrics: Social Performance
- 7.1.5 Company Sustainability Metrics: Environmental Performance

7.2 Examples of Sustainability Metrics for General Governments

- 7.2.1 Sustainability Metrics for General Governments: Economic Performance
- 7.2.2 Sustainability Metrics for General Governments: Social Performance
- 7.2.3 Sustainability Metrics for General Governments: Environmental Performance

7.3 Examples of Sustainability Metrics for Universities

- 7.3.1 Sustainability Metrics for Universities: General Performance
- 7.3.2 Sustainability Metrics for Universities: Economic Performance
- 7.3.3 Sustainability Metrics for Universities: Social Performance
- 7.3.4 Sustainability Metrics for Universities: Environmental Performance

Appendix 8- Sustainability Resources for Universities

8.1 Organizations That Can Help Universities Pursue Sustainability

- 8.1.1 Global Higher Education for Sustainability Partnership (UNESCO, ULSF, IAU, and COPERNICUS)
- 8.1.2 U.S. Partnership for the Decade of Education for Sustainable Development (NCSE and ULSF)
- 8.1.3 National Wildlife Federation's Campus Ecology® Group
- 8.1.4 U.S. Environmental Protection Agency
- 8.1.5 International Institute for Sustainable Development
- 8.1.6 Tertiary Education Facilities Management Association
- 8.1.7 oikos International
- 8.1.8 Sierra Youth Coalition
- 8.1.9 Dutch CKHO
- 8.1.10 Baltic University Programme
- 8.1.11 Technical University of Hamburg Consortium
- 8.1.12 Alliance for Global Sustainability
- 8.1.13 U.K. Higher Education Partnership for Sustainability
- 8.1.14 Philippines PATLEPAM
- 8.1.15 Social Enterprise Knowledge Network
- 8.1.16 New Jersey Higher Education Partnership for Sustainability
- 8.1.17 Pennsylvania Consortium for Interdisciplinary Environmental Policy
- 8.1.18 Campus Consortium for Environmental Excellence
- 8.1.19 Associated Colleges of the South Environmental Initiative
- 8.1.20 South Carolina Sustainable Universities Initiative
- 8.1.21 Net Impact

8.2 Sustainability-Related Codes for Collegiate Institutions

- 8.2.1 Talloires Declaration (1990)
- 8.2.2 Halifax Declaration (1991)
- 8.2.3 Swansea Declaration (1993)
- 8.2.4 COPERNICUS Charter (1993)
- 8.2.5 Kyoto Declaration(1993)
- 8.2.6 Blueprint for a Green Campus (1994)
- 8.2.7 The Essex Report (1995)
- 8.2.8 Dutch Charter for Sustainable Development in Vocational Training (Higher Professional Education)(1999)
- 8.2.9 Lüneburg Declaration (2001)
- 8.2.10 Ubuntu Declaration (September 2002)

8.3 Sustainability Assessment Tools for Collegiate Institutions

- 8.3.1 U.K.- EcoCampus
- 8.2.3 ULSF's Sustainability Assessment Questionnaire
- 8.3.3 Dutch Auditing Instrument for Sustainability In Higher Education
- 8.3.4 The Campus Sustainability Assessment Project (CSAP)
- 8.3.5 NJHEPS Campus Sustainability: Selected Indicators Snapshot and Guide

- 8.3.6 Good Company's Sustainability Pathways Toolkit
- 8.3.7 UCSB Campus Sustainability Assessment Protocol
- 8.3.8 U.K. HEPS Reporting for Sustainability Guidance for Higher Education Institutions
- 8.3.9 C2E2 Environmental Management System (EMS) Self-Assessment Checklist
- 8.3.10 Campus Ecology Environmental Audit
- 8.3.11 The Ecological Footprint Analysis of Colorado College
- 8.3.12 EPA's Twenty Questions for College and University Presidents
